

## STEAMTABLE (HOTDOG CART) DIRECTIONS

1. Fill large water pan with approximately  $\frac{1}{2}$  to  $\frac{3}{4}$  of an inch of hot water.
2. Open Sterno, place under large water pan and light.
3. Fill the  $\frac{1}{3}$  size pans (larger 2 of the 4 pans) with clean hot water and add hot dogs.  
*\*For best results boil hotdogs on stove top first, then empty pot of hotdogs and water into pans.*
4. The two  $\frac{1}{6}$  size pans are for your condiments such as chili or sauerkraut.
5. Check water levels periodically and add water as needed.

***\*Always be very careful around boiling hot water***

*Although equipment is always cleaned thoroughly, we recommend that all pans be washed & rinsed well prior to use.*

When finished using the Hotdog Cart:

Please empty all water from pans

Remove any condiments from smaller pans

Wipe pans out as necessary

Remove any hotdogs, buns, serving utensils, beverages, etc from cart

Be sure Sterno is out and remove from cart

*The Fun Starts Here!*
