

# Party Amarillo

## Bubble Machine

### **SAFETY:**

1. Never place the unit directly over a high traffic area.
2. Use extreme caution if using the bubbles on a tile or “slick” floor surface. The bubble juice will create a slippery surface.
3. Do not leave the Bubble Machine unattended at any time.
4. Do not allow children to touch the Bubble Machine.
5. Do not allow spectators to stand directly in front of the Bubble Machine.
6. The bubble juice is a soapy solution and it will burn the eyes. If the bubble juice comes in contact with the eyes, flush them immediately with water.
7. Do not allow the spectators to eat the bubbles.

### **TO ASSEMBLE THE BUBBLE MACHINE:**

1. Place the Bubble Machine on a level surface no more the 50 feet from a standard 110 grounded electrical outlet.
2. Unscrew the thumb screws located on the sides of the Bubble Machine.
3. The Bubble Machine can now be pulled up and a tray will be revealed.
4. Pour the bubble juice into the tray so that it is full but not overflowing.
5. Lower the Bubble Machine over the tray and tighten the thumbscrews.
6. Place the Bubble Machine in a safe place out of reach of participants.
