

Party Amarillo, LLC

Gladiator Joust

ATTENDANTS READ HERE:

1. One adult attendant must supervise the unit. Do not leave the unit unattended at any time.
2. The attendant must read and understand the safety instructions and they are responsible to make all players aware of the safety rules. Safety of the players is the responsibility of the attendant.
3. Deflate immediately if high wind, rain, lightning, or thunder is present or approaching.
4. The inflatable must be securely staked at all times.
5. Both players **must wear the helmets** at all times while jousting. Do not allow rough play.
6. Use extreme caution that the players use pole-to-pole combat only. The players should never use the pole to "jab" the other player's body.
7. Do not take the jousting poles out of the inflatable for any reason. They must be used only in the inflatable to avoid injuries.
8. Only 2 at a time on the inflatable. Do not overcrowd the unit. Do not allow the attendant on the inflatable.
9. Weight limit per person is 200 lbs. Group participants according to age, size, and abilities.
10. Do not allow anyone to participate who is intoxicated, pregnant, or has any other physical limitations, including neck, back, knee, or other disabilities that may jeopardize their safety.
11. The object of the game is to knock the other player off the pedestal.
12. No shoes, silly string, sharp objects, food, confetti, glitter, or pets allowed.
13. Do not climb on the outside or the top of the inflatable.
14. Do not allow the inflatable or motor to get wet. Keep people away from the blower and extension cords.

TO ASSEMBLE THE GAME:

1. The inflatable is heavy and will take 2 strong men to set up the unit. Use caution when lifting.
2. Dimensions are approximately 22' diameter and 8'H. Allow 5' clearance on each side and top.
3. Pick a flat, level location free from overhead obstacles like electrical lines or trees, and also away from the vicinity of underground utilities or irrigation.
4. The location must be less than 50 feet from a 20 amp dedicated circuit.
5. Grass is the best surface. The inflatable must be securely anchored at all times.
6. Do not inflate the unit if high wind or rain is present. Watch for severe weather approaching.
7. Unroll the vinyl roll and locate the blower tubes extending from the unit.
8. Tie one tube securely around the 1 blower. Make sure there are no kinks in the tube.
9. Tie off the other 2 tubes and verify all zippers are closed under the 3 Velcro flaps. There is one located flap on the pedestal.
10. Plug the blower into a GFI outlet and allow the unit to inflate. Do not plug anything else into the same circuit or it will trip the breaker. (If a generator is used, it must be at least 4000 Watts)
11. Use only the extension cords provided. Do not remove the grounding pin from cord.
12. If the blower is used on a gym floor, place a mat under the blower.
13. Immediately anchor the unit by inserting the stakes completely into the ground at a 45 degree angle.
14. The blower will run continuously during the event.

TO TAKE DOWN THE GAME:

1. Clean all debris from the inflatable. Please inform us if the inflatable is damaged, dirty, or wet.

2. Turn off and untie the blower. Allow the inflatable to deflate. Remove the blower and the stakes.
3. "Square up" the inflatable and fold it into thirds. Roll it very tightly and put ties around the roll.
4. Use extreme caution when handling the inflatable. It is heavy and will take 2-3 men to load.
